

**Out with the old in with the new,
refresh your closet!**

Every wardrobe needs a fresh start!

Remember when dry cleaning your clothing, if you are not rotating your garments that often keep it in plastic. If you are rotating your clothing, use Febreze® to give it a fresh feel after wearing it. Also, starch is not always the best thing for your shirts. If you are looking for less wrinkle, starching actually causes more wrinkles. Always remember for a sharp looking collar to use brass stays; just remember to take them out, as dry cleaners love free stuff.

August is a perfect time to bring out those sport coats with dress slacks or jeans and a great color mock or V-neck shirt. To finish the look throw on a nice suede loafer.

Always keep one thing in mind: Now more than ever people are getting dressed. Every man should be in a jacket. You never know who you are going to meet!

Have a favorite College or Pro Team or some other novelty that you want to add to your shirt?

**Ready-made
and
Custom Jeans**

Carrying ready-made jeans, as well as custom.
