THE Big REVEAL!

The Bucco team had an event of a lifetime on November 6th at the Blackthorn in Kenilworth NJ. Bucco launched their "Luxury Mobile" a men's custom Boutique on wheels. This is no ordinary Boutique not only is it in a Gorgeous Black Mercedes Sprinter but the interior spares no expense! The mobile is outfitted wall to wall with custom carpentry and racks of only the finest shirts, pants, cufflinks, pocket squares, and accessories to top off the finished look. The stock even includes a wall of every color tie you could imagine and special products like The Art of Shaving with Colognes such as Gucci and Dolce ! The night was packed with fine food, drinks, cigars by: Rob Menaker and a Celebrity meet and greet with Prince Amukamara of the super bowl winning NY Giants! The Princes gracious contribution included signing autographs and candid opportunities. Prince also boarded the boutique ready to shop! Custom clothing is going to change now that Bucco Couture Luxury mobile is in the public eye. We are elated that so many people came out that night and we will continue to promote our brand until it is a staple in any fashion forward mans wardrobe!

Why Custom is Key

Custom clothing is not only a statement but a staple. If you have custom clothing it will fit to your unique body type and give you more options to coordinate other pieces into your wardrobe. Custom will also give you the confidence in the work place or socially. You know you look good in custom because it allows you to create a more refined you! At the home or at the office these pieces are not only a perfect fit on, but a perfect fit in your closet
